About the Move & Act project

Young people with disabilities, migrants or NEETs are considered as those who are the most vulnerable groups which have been affected the most by the pandemic and the economic crisis that hit the last decade most of the European countries.

Move & Act (Empower Youth through Entrepreneurial and Digital Skills) is Erasmus+ project that supports the development of specific digital, creative and entrepreneurial skills for young people. The main purpose of this skills development is to help young people to form a European identity, increase their employability, raise their voices and interact with the local, National and European.

OBJECTIVES

- ◆ Developing artistic (focused on the Visual Arts field) and digital (focused on innovative new technologies) skills for marginalized young people.
- ◆ Creation of a network of youth at risk of social exclusion.
- ◆ Giving the opportunity to young people to raise their voice about their personal or their communities' challenges.

TARGET GROUPS

- ◆ Young people NEETs (Not in Education, Employment or Training),
- ◆ Young people with disabilities,
- ◆ Young migrants,
- ◆ Young people related with Arts.

MOVE & ACT focuses on the engagement of those groups as we consider that they are the most vulnerable and have been affected the most by the pandemic and the economic crisis.

RESULTS

- ◆ Training programme including: GUIDE with artistic techniques and activities; Series of WEBINARS; Face2face WORKSHOP; E-PLATFORM with free access to materials,
- ◆ Digital Hub including: DATABASE with funding opportunities for young artists; Elevator pitch TRAINING; Community VIRTUAL PLACE and MENTORING for youth,
- ◆ MOVE & ACT Online PhotoVoice Contest and Exhibition.

WEBINARS

Training programme of Artistic and Digital skills training for young people

The objective of this training is mainly developing artistic and digital skills for marginalized young people. The webinars regarding artistic skills focus on the Visual Arts field and those regarding digital skills focus on innovative new technologies that can be used in combination with artistic activities such as 3D design, printing and scanning.

There will be 6 webinars in total, implemented from February until May 2023. For the time being there were 4 webinars organized:

- ◆ "ART instead of a pill – a therapeutic aspect of art collage" on 16th February with presentation of selected artists whose work exemplifies the therapeutic role of art.
- ◆ "Disability in Art History" on 2nd March looking at examples of the disabled human body as it has been represented in art history.
- ◆ "Visual Vernacular" on 16th March showing a new type of art that is performed through the use of the body, hands and various artistic techniques in order to show a story without the support of music or spoken language.
- ◆ "Successful VR Art Practises & Basic Knowledge of Text-to-Image AI (AI Art Generator)" on 30th March talking about practices in the field of Visual Arts and art generated by artificial intelligence.
