Introduction

This document summarizes dissemination activities implemented by MOVE & ACT project consortium. All below mentioned activities took place between 1st October 2022 and 31st December 2023.

Project consortium’s dissemination activities summary

Project partners are implementing dissemination activities from the very beginning of the project. They mostly use online channels to disseminate project and it’s results. Those channels are:

- Facebook profiles of partner organizations,
- Project partners’ websites,
- Instagram profiles of partner organizations,
- LinkedIn profiles of partner organizations.

All in all project partners implemented 187 dissemination activities reaching audience of 28119 people.

Number of activities and audience reach provided by each partner can be seen on the table below:

Partner	Number of actions	Number of participants
⊕ e-Nable	28	3877
⊕ Ergon	23	1167
⊕ IRIS	35	10155
⊕ My Artist	15	2932
⊕ Open Europe	35	4778
⊕ SAN	35	4026
⊕ SocHUB	16	1184
ALL PARTNERS	187	28119

All dissemination activities can be seen in the Annexes attached to this document.

Project Facebook page summary

MOVE & ACT project Facebook page (<https://www.facebook.com/MoveAndActProject>) was established in January 2023. For the time being it has 164 followers.

Facebook page reach

Facebook page reach is the number of accounts that saw any content from or about project's Facebook page, including posts, stories or ads. Reach is not the same as views, which can include multiple views of posts by the same accounts.

All together post and other content from project's Facebook page reach is 10284 people. This indicator is an estimate.

10 284 ↑ .100%

Image 2. Facebook page reach

Facebook page visits

The image below shows the number of visits to project's Facebook page. All together 2162 people visited project's Facebook page.

2162 ↑ 100%

Image 3. Facebook page visits

New Facebook page likes

The image below shows the number of new likes for project’s Facebook page. All together it got 137 likes.

137 ↑ 100%

Dissemination materials

During projects implementation partnership also produced project leaflet and issued 2 newsletters.

All dissemination materials were translated into all partners national languages.

Project's leaflet:

We are pleased to introduce the project "Empower Youth through Entrepreneurial and Digital Skills" (MOVE & ACT) - an EU co-funded initiative!

For two and a half years we will be working in this very special project that supports the development of specific digital, creative and entrepreneurial skills for young people. The main purpose of this skills development is to help young people to form a European identity, increase their employability, raise their voices and interact with the local, National and European.

Project no. 2022-1-PL01-KA220-YOU-000086569

RATIONALE

The social distancing and isolation that happened for two last years due to the pandemic, revealed a great demand for young people to interact with other peers and to express themselves. Young people found a way out and for many of them digital technologies and arts were the only way of connection with the outside world.

Moreover, the often precarious nature of creative work has made artists and cultural professionals particularly vulnerable to the economic shocks that the pandemic has triggered. During the recent financial crisis some years ago, youth unemployment went up from 16% to 26%. To avoid the same impact from the pandemic crisis, the EU announced the Youth Employment Support package to provide a bridge to jobs for the next generation.

Based on these facts, the consortium of MOVE & ACT decided to implement this project in order to reinforce digital skills and social entrepreneurial mindset of young vulnerable people.

AIMS AND OBJECTIVES

1. Developing artistic (focused on the Visual Arts field) and digital (focused on innovative new technologies) skills for marginalized young people.
2. Creation of a network of youth at risk of social exclusion providing entrepreneurial tools, developing the sense of belonging and self-esteem, the common interest for visual arts, and empowering their inclusive and entrepreneurial perspective.
3. Giving the opportunity to young people to raise their voice about their personal or their communities challenges through sharing of those challenges to public audience during Online PhotoVoice Contest and Exhibition, and the increase of the creativity, cultural expression and employability of young people.

RESULTS AND ACTIVITIES

MOVE & ACT Training programme for youth who wish to reinforce their competences and employability:

- GUIDE with new artistic techniques and activities
- Series of WEBINARS about basic artistic and digital skills
- Face2face WORKSHOP about artistic activities integrating digital technologies
- E-PLATFORM with free access to all the educational materials

MOVE & ACT Digital Hub:

- DATABASE with funding opportunities for young artists
- Elevator pitch TRAINING - a video guide and webinar on how to present one's professional background
- Community VIRTUAL PLACE - a specific section on project's website for interaction between young people
- MENTORING for youth's entrepreneurial mindset

MOVE & ACT Online PhotoVoice Contest and Exhibition:

- GUIDELINE for participation
- Online PhotoVoice CONTEST with photos highlighting problems and challenges of youth's communities.

What is more, MULTIPLIER EVENTS will be organized in each project's country to present final results and a physical exhibition of the PhotoVoice contest.

TARGET GROUPS

Direct target groups:

- Young NEETs (Not in Education, Employment or Training)
- Young people related with Arts, professionals or amateurs
- Young people with disabilities
- Young migrants

Indirect target groups:

- Youth workers / Trainers of the consortium
- Youth workers / Trainers of any organization working with the direct target groups

Move & Act

Empower Youth through Entrepreneurial and Digital Skills

Project no. 2022-1-PL01-KA220-YOU-000086569

About the Move & Act project

Young people with disabilities, migrants or NEETs are considered as those who are the most vulnerable groups which have been affected the most by the pandemic and the economic crisis that hit the last decade most of the European countries.

Move & Act (Empower Youth through Entrepreneurial and Digital Skills) is Erasmus+ project that supports the development of specific digital, creative and entrepreneurial skills for young people. The main purpose of this skills development is to help young people to form a European identity, increase their employability, raise their voices and interact with the local, National and European.

OBJECTIVES

- Developing artists (focused on the Visual Arts field) and digital (focused on innovative new technologies) skills for marginalized young people.
- Creation of a network of youth at risk of social exclusion.
- Giving the opportunity to young people to raise their voice about their personal or their communities' challenges.

TARGET GROUPS

- Young people NEETs (Not in Education, Employment or Training).
- Young people with disabilities.
- Young migrants.

MOVE & ACT focuses on the engagement of these groups as we consider that they are the most vulnerable and have been affected the most by the pandemic and the economic crisis.

RESULTS

- Training programme including: OUPD with artistic techniques and activities; Series of WEBINARS: Face2Face WORKSHOP PLATFORM with free access to materials.
- Digital Hub including: OLYMPIA with funding opportunities for young artists; Davos - patch TRAINING; Community VIRTUAL PLACE and MENTORING for youth.
- MOVE & ACT Online PhotoVoice Contest and Exhibition.

WEBINARS

Training programme of Artistic and Digital skills training for young people

The objective of this training is mainly developing artistic and digital skills for marginalized young people. The webinars regarding artistic skills focus on the Visual Arts field and those regarding digital skills focus on innovative new technologies that can be used in combination with artistic activities such as 3D design, printing and scanning.

There will be 5 webinars in total, implemented from February until May 2023. For the time being there were 4 webinars organized:

- "ART beyond a pill - a therapeutic aspect of art collage" on 18th February with presentation of selected artists whose work exemplifies the therapeutic role of art.
- "Disability in Art History" on 3rd March stating examples of the disabled human body as it has been represented in art history.
- "Visual VerboDance" on 18th March showing a new type of art that is performed through the use of the body, hands and various artistic techniques in order to show a story without the support of music or spoken language.
- "Successful VR Art Practices & basic knowledge of Text-to-Image AI (AI Art Generator)" on 30th March talking about practices in the field of Visual Arts and art generated by artificial intelligence.

Move & Act

Empower Youth through Entrepreneurial and Digital Skills

Project no. 2022-1-PL01-KA220-YOU-000086569

What is new in the project?

Move & Act is Erasmus+ project that supports the development of specific digital, creative and entrepreneurial skills for young people. The main purpose of this skills development is to help young people to form a European identity, increase their employability, raise their voices and interact with the local, national and European.

Amazing work has been done over the past few months from the consortium! We created an online platform, gathered new and innovative artistic techniques and activities, and implemented a few engaging webinars. Moreover, young participants had a chance to gain new skills during LTTA in Athens.

RESULTS

Elevator Pitch Video Guide

The material shows how young people can effectively present their professional background and artwork in just one minute!

Upon watching the Video Guide, you will be able to describe what an elevator pitch is and why it is important. You will see examples of successful elevator pitches from artists and know what to consider before writing your own elevator pitch. You will also be equipped with knowledge how to deliver a good elevator pitch whenever needed. It can be seen [HERE](#).

An OPEN GUIDE with new and innovative artistic techniques and activities

In this guidebook, users can find 14 examples of artistic techniques and activities divided into two topics:

- New artistic techniques in the visual Arts.
- Artistic activities which use digital technologies.

Experimenting with unique elements instead of sticking with what's conventional works wonders and can even lead to creating novel form of arts.

Let's try to explore how the use of technology can affect the art-making process positively! Check the Guide [HERE](#).

Webinars

Training programme of Artistic and Digital skills training for young people. The last 2 webinars of this training were:

- "3D Printing basics" on 27th April describing the basic principles of 3D printing technology.
- "3D Printing Hardware and Software" on 18th May showing characteristics that contribute to a high-quality final print. All 6 webinars can be watched [HERE](#).

Webinar training about the Elevator Pitch: The webinar provided a comprehensive exploration of Elevator Pitch technique. It was aimed to boost participants' self-confidence, provide valuable techniques for taking initiatives, and improve employability. You can watch it and check out additional materials [HERE](#).

PROJECT MEETINGS

Face2face & Online Meetings

Each month project consortium is organizing a monthly online meeting to discuss the progress of the project.

Traditionally, apart from project results related matters, during the meetings we discuss issues connected with project management as well as dissemination and quality assurance of its results.

What is more, within the project we already had 2 Transnational Project Meetings. Kick-off meeting took place in Brno, Spain, and our second meeting was held in Athens, Greece. The last meeting was an opportunity to take stock of the tasks carried out so far and to plan future activities and deliverables.

Learning, Teaching and Training Activity (LTTA) in Athens, Greece

From 18th to 25th June 21 young people from Greece, Poland, Lithuania, Spain and Italy participated in a series of workshops. Participants gathered new skills in 3D printing, learnt more about inclusion and acceptance, and explored the beauty of Greece. The workshops focused on 3D printing and its use to help people with disabilities, especially vision disorders. Also, key concepts related to social studies were introduced. Workshops were co-facilitated by two Greek partners: M4ARTIST & e-noble Greece.

PROJECT CONSORTIUM:

Dissemination activities carried out by the Move & Act consortium

In the following pages, a short summary of each partner's dissemination activities will be explained with the most important and worth-mentioning ones to be included.

Partner 1 – SAN (Społeczna Akademia Nauk)

SAN has reported 35 dissemination activities.

They were mainly on the organization's website and Facebook concerning updates of the project (online meetings, TPMs, newsletters).

Information about the project on organisation's website: <http://www.dpm.san.edu.pl/international-projects/move-act-empower-youth-through-entrepreneurial-and-digital-skills> (available also in Polish).

MOVE&ACT Pre-Kick-off Meeting

« wróć

On 17 October we held a pre-kick-off meeting of the new MOVE&ACT project. During the meeting, partners presented their organisations, an overview of the project was given and the first tasks were shared. In December, the partners will have the opportunity to meet at the First Partners' Meeting in Reus, Spain.

MOVE & ACT - Empower Youth through Entrepreneurial and Digital Skills

« wróć

During the pandemic, the social distancing and isolation, that happened the two last years due to pandemic, revealed a great demand for young people to stay connected with other peers, to interact, to keep on developing professional skills, creativity and imagination. Young people in many countries were confined to their homes and, for many of them digital technologies and arts, were the only way of expression and connection with the outside world.

Apart from the general youth population many young people around the world depend on the cultural and creative industries for their livelihoods. Yet, the often precarious nature of their work has made artists and cultural professionals particularly vulnerable to the economic shocks that the pandemic has triggered. A need for new entrepreneurial ventures started to appear.

Mokymai jaunimui - Europos istorijos ir kultūros lopšyje

2023 06 19 - 2023 06 23, Atėnai, Graikija

Atėnuose, Socialinio hubo vykdomame projekte MOVE&ACT visą savaitę vyko įkvepiantys LTTA mokymai.

Pirmąją dieną jaunuoliai dalyvavo sesijoje "Design Your Dream European Identity", kur kūrėme savo alternatyvius Europos pasus. Pasitelkę meno reikmenis ir pasų šablonus, išlaisvinome savo vaizduotę. Nuo gražių piešinių, atspindinčių mėgstamiausias Europos kryptis iki nuosirdžių, asmeninių vertybių, tikslų ir siekių. Atsiskleidė visų talentai ir kūrybingumas, sužinojome vienos kito požiūrį į europinę tapatybę! Kai pasai buvo baigti, dalyviai turėjo unikalią galimybę pasidalinti aptarti pasirinkimų prasmę ir pasidalinti savo idėjomis. Tokie pokalbiai skatina gilesnį bendruomenės jausmą.

Antradienį jaunuoliai susipažino su 3D spausdintuvu-veikimu! Tai buvo nepaprasta galimybė pažvelgti į ateitį ir sužinoti apie šiuolaikines technologijas. 3D spausdintuvas yra naujos kartos technologijos įrankis, leidžiantis kurti trimačius objektus iš skirtingų medžiagų. Dalyviai sužinojo, kaip spausdintuvas skenuoja ir paverčia dizainus į fizinį objektą. Ši patirtis jungia technologijas su meniniais ir kūrybiniais gebėjimais, skatina jaunuolius atsikleisti neribotas galimybes. 3D spausdintuvu gali būti sukurti daiktai, kurie gali būti naudingi kasdieniame gyvenime.
